### IVD RAW MATERIALS FOR RSV, INFLUENZA, & COVID-19

Behind every successful diagnostic test lies the quality of its raw materials, and we are proud to be your trusted source for infectious disease antibodies and antigens. Our commitment to consistent quality is reflected in our adherence to current Good Manufacturing Practices (cGMP) and our ISO 9001:2015 or ISO 13485:2016 quality standards.

### NEW MATCHED PAIR INFECTIOUS DISEASE ANTIBODIES

It can be a challenge to find “off the shelf” and confirmed antibody pairs with the high sensitivity, specificity, purity, and stability needed to ensure an IVD kit meets performance requirements. We have taken the guesswork out of finding antibodies for diagnostic raw materials, offering only the best-confirmed pairs.

## NEW IN VIVO CLONES NOW AVAILABLE

In vivo antibodies from Leinco Technologies have the highest purity standards in the industry, with low endotoxin levels, no detectable aggregates nor leachable protein A. We offer a broad range of purified in vivo antibodies that can be utilized in flow cytometry, immunohistochemistry, spatial biology studies, and more. We are excited to announce that we have new in vivo clones available now!
