

## THE LEINCO LATEST

### NEW! *IN VIVO* GOLD™ AND PLATINUM™ FUNCTIONAL-GRADE ANTIBODIES AND ISOTYPE CONTROLS

Leinco Technologies offers a broad range of purified *in vivo* functional-grade antibodies that can be utilized in flow cytometry, immunohistochemistry, spatial biology studies, and more. Shop our newly added products!

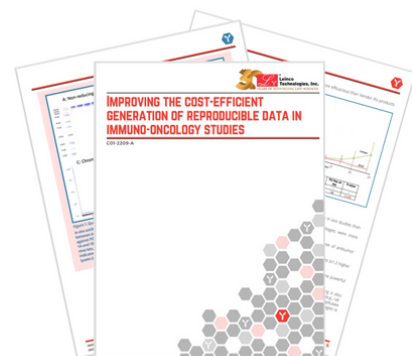

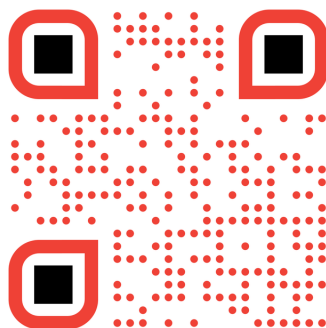

Antibodies are available in 1 mg, 5 mg, 25 mg, 50 mg and 100 mg sizes. Bulk sizes, custom concentrations and custom packaging are available on request.

---

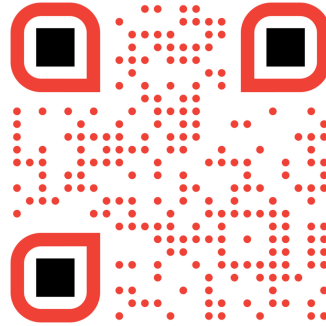

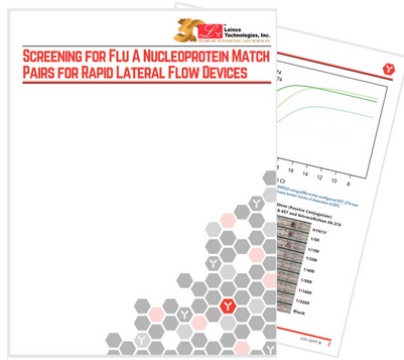

### *IN VIVO* CASE STUDY

This case study compares PD-1, PD-L1 and CTLA4 antibodies from Leinco Technologies vs a competitor's products in a series of *in vivo* mouse experiments. The objective of the study was to evaluate the *in vivo* efficacy on tumor growth and tolerability of the various clones.

## INFLUENZA CASE STUDY

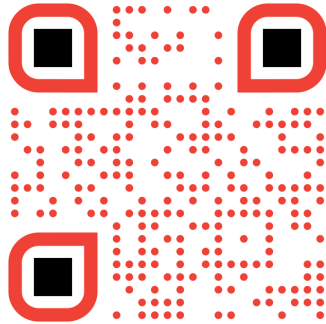

Learn the results of a comparative analysis between a commercially available lateral flow test and the Leinco antibody combination.

---

## SPATIAL BIOLOGY WHITEPAPER

Find out more about how spatial phenotyping is revolutionizing translational science and how Leinco Technologies is supporting these efforts with high quality antibodies.

---

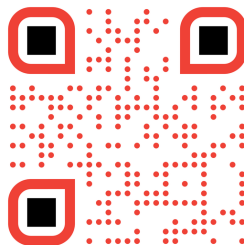

## LEINCO AND THERMO FISHER SCIENTIFIC

Leinco antibodies, proteins and sheath fluid are also available for purchase on Thermo Fisher Scientific and Fisher Scientific order sites.

## DIGITAL NEWSLETTER

## TALK TO AN EXPERT

Have specific product related questions? Contact our sales team directly, and they'll be sure to respond in a timely manner.

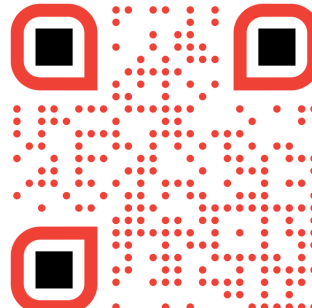

---

## CUSTOM DEVELOPMENT AND PRODUCTION REQUEST

Submit a request if you're interested in learning more information about:

- Custom IVD Antibodies and Protein Production Services
- Immunoassay Development Services
- Monoclonal Antibody Production
- Antibody Conjugation Services
- Antibody Oligo Barcoding
- Transient Antibody Expression
- Master Cell Banking
